LATER FROM THE EAST.

WASHINGTON DATES TO OCTOBER 12.

Progress of the Great Rebellion.

SACRAMENTO, Oct. 24th, 1861.

The Pony arrived at Ruby Valley Station, 424 miles east of Sacramento, at 2 o'clock yesterday morning.

WASHINGTON, Oct. 12.—Our pickets, stationed near Prospect Hill, were driven in by rebels in force—their object being, doubtless, to ascertain the position of our advance. Our troops are in a sound stable condition. The *Tribune's* dispatch says the army of the Potomac will probably soon be divided into several corps to operate according to the practice of European commanders. This plan has met with a strong opposition from military men of the old school, but McClellan insists upon it, and it will probably be adopted. Should it be done, Generals McDowell, Friedblein and Potter, will be among the commanders of divisions, which will be from 30,000 to 50,000 strong.

Mr. Muir, the British Consul at New Orleans is now at Washington, having been 24 days on the journey, which was much obstructed by transportation of rebel troops over the railways. He states that the same determination and enthusiasm continues to be shown throughout the South. The rebels are subjected to serious deprivations. Muir will probably very soon return to England.

The *Herald's* dispatch says Gov. Yates and H. William Kelly, of Illinois, have obtained from Government, for the armament of that State, $100,000. Four batteries of James' rifle-cannon, 6,000 muskets, and 700 rifles.

The Maryland Postmaster was arrested for sending mail bags to rebel States.

Despatches received from Norfolk and New Orleans say Billy Wilson's Zouaves attacked the Island of Santa Rosa. Forces landed from Alabama, Mississippi, and Louisiana, and a severe fight ensued. The rebels gave the Zouaves great credit for their bravery, but claimed to have spiked their guns and destroyed their camp equipage; also claimed to have committed great slaughter among the Zouaves, but give no number of the killed.

Accounts from Banks' column say that the rebels do not appear to be making any demonstration on the Virginia side of the Potomac.

Intelligence from our Mexican Minister to the effect that the Mexican government has asked for a loan from our government of from 5 to $40,000,000. Our minister regards it as highly important just at this time that Mexico should have the money and pay interest on her English debts and thus release her from her present embarrassment. Our government is determined to stand by Mexico at all hazards and protect her against encroachment by foreign powers.

The murther of Jackson, who murdered Ellsworth, has been arrested for keeping a rendezvous for rebel spies near Prospect Hill.

Despatches received by the Chicago *Journal* say there is a rumor that Price has been prevented from crossing the Osage and that Gen. Lane has routed a detachment of his rear guard, after cutting them off from the main body.

Maj. James' cavalry at Cameron, Mo., on Saturday came upon 250 or 300 of the rebels in Ray county, and corralled two miles south of Cameron. The guerillas cried for Lane's men—they taking refuge in the timber. One grand volley from 20 men—when they completely run them from the timber—killing eight and taking five prisoners. Four Federals were wounded and one was killed.

A company is being formed for cotton cultivation at Queen's Island, with coolie labor for laborers.

The St. Petersburgh *Bee* predicts the recognition of the Southern Confederacy by France.

"Genius will always work itself through," said a poor poet, when he found his coat was out at the elbows.

FRIDAY MORNING, OCTOBER 25, 1861

The Indians tampered With.

It is a matter of public notoriety that the Secessionists have corrupted the Indians placed on reserves in the Indian country west of Arkansas and that they have been employed to go into the State of Missouri with their tomahawks, scalping knives and rifles, to do the bidding of the rebel chiefs McCulloch, Price & Co It is also known that agents have been among the Indians in Kansas, and have controlled Indians there to make war upon our loyal citizens These facts are studiously kept out of sight by our Secession editors They have no sympathies in behalf of our people when the tomahawk of the savage is lifted over their heads, though their tears run day and night for the reported starvation of an infant in New York, the child of a volunteer

But we were about to state that other Indians than those on the borders of the Western States have been tampered with by Secessionists The Indians on Siletz and Umatilla Reservations, have also been the subjects of intrigue by Secessionists Many Indians left the first reservation some time ago and went back to Rogue River. They turned their horses upon the crops of the farmers, and dared them to drive them off The cause of this conduct was soon ascertained. They said they had been told that the Government was broken up that they would never be paid for their lands, and that they could go back and again take possession of them There was much difficulty in inducing the Indians to believe that they had been told these stories by persons who had forked tongues, and that they were deceived A similar but worse state of facts existed on the Umatilla Reservation When the new Agent reached the Agency he found the Agent was gone, the Indians there in possession, all drunk, and on inquiring what all this meant, was told that they had been informed that their Great Father was dead that they would not be protected, that nothing more would be done for them, and they must take care of themselves Who but Secessionists ever put these lies into the heads of the Indians? The recent robberies at the Umatilla Reservation, by the Snake Indians, have probably grown out of these misrepresentations

We do not believe however, that Secessionists can permanently shake the fidelity of the natives to our Government. Major Wintsen has recently returned from Colville, and represents that the best feeling there exists among the Indians, and we have equally favorable accounts from other quarters

J C. Breckenridge

This distinguished "*peace man*," this *lover of the Union*," this *patriot*, whose encomiums we have found so often in the Secession papers has slipped off from Kentucky and joined Jeff Davis' army Are we wrong in saying that the leading *peace* men throughout the Union are *traitors*? We say *leading* peace men—because we are aware that there are men who have been drawn into traitors' ranks by the cry of peace—when there was no peace, and when its only design was to strengthen the adversaries of our Constitution and Government.

The Cincinnati *Commercial Advertiser*, in commenting upon the TREASON of J C Breckenridge thus speaks of him What a commentary upon public life! It seems but yesterday he was the idol of his party in Kentucky with the prestige of a rise in fame unparalleled as to rapidity in the annals of American history His worshippers thought no position too good for him Fondly and confidently they looked to his elevation to the highest office in the gift of his countrymen. Now we hear of him as a fugitive from justice, fleeing by night and in a morning fog, through the defiles of a mountainous country, to throw himself into the protecting arms of the enemies of the Constitution and the Union."

The [illegible] parallel between [illegible] is worthy [illegible] They were known Both were [illegible] Both received [illegible] education practiced law [illegible] and were [illegible] The manner [illegible] a courtship [illegible] the legal parents [illegible] intimately [illegible] with [illegible] Both were [illegible] and with [illegible] styles unparalleled in American history Both were instantly successful before the people not knowing what was to suffer defeat Both became Vice Presidents of the United States and their friends predicted that nothing could prevent them from becoming Presidents The fame and character of both culminated at their attaining the Vice Presidency At that point the influence and character of both began to decline, and they went down at a fearful rate One inaugurated the spoil or caucus system of which is within which is The other inaugurated and reduced to a system in Kentucky the invariable use of money to carry elections The philosopher's stone that was to turn all rights into certainty Both seeing they could not become Presidents of the United States, endeavored to dismember the Republic and to rule on its ruins Both were charged with treason Both fled by night. One was caught and tried The other was pursued and has not yet been caught

Bravery—Patriotism

The secession press has no commendations for the bravery or patriotism of our people It publishes the dispatches as they arrive—evidently pleased when they give accounts of disasters to our arms—but has evidently sorrowful when they record our success What a position for an American citizen to be placed in! What a harvest of mortification and shame such men shall hereafter reap!—It will be folly for them to whine about their patriotism, for nobody will believe them It will be worse than folly for them to claim their peculiar regard for the Union and Constitution for the veriest tyro in intelligence knows that they have sought to overthrow both

Col James A Mulligan the distinguished soldier of Illinois was born in Utica in 1829 He is of Irish descent He has a fine education, and is an excellent writer. He was with Stevens in his expeditions in Central America He is a strict member of the Catholic Church. He has been a clerk in the Department of the Interior On the news arriving of the bombardment of Fort Sumter, he threw his soul into the national cause The Irish companies held a meeting in Chicago, of which he was Chairman Shortly afterwards he went to Washington, with a letter written by the late Senator Douglas, on his death bed, to the President, tendering a regiment, to be called the "Irish Brigade" He was elected Colonel, and immediately went to work with a will The course of the brigade up to the battle of Lexington is well known it has nobly, bravely and honorably done its duty.

Colonel Mulligan is worthy of all praise, A purer, a better man does not live in the State of Illinois Since he was able to tell the difference between ale and water a glass of spirituous or malt liquor has not passed his lips. He is a rigid temperance man, although he is jocund and whole-souled to a fault. He is six feet three inches in hight with a wiry, elastic frame—a large, lestrous hazel eye—an open frank Celtic face stamped with courage, pluck and independence, surmounted with a bushy profusion of hair, tinctured with gray Honorable in all relations—respected by all—he has won his way by untiring industry and unquestionable courage On the 26th day of October 1850, he was married to Miss Marian Nugent by the Roman Catholic Bishop of Chicago

A fine scholar, a good speaker a brilliant writer a promising lawyer, was he when the banner of the Union was insulted Now he is, long may he continue so—one of the brave defenders of the Union In one of his last letters received by the gentleman above alluded to, he says

"If I die, if I fall in defense of our laws and Constitution, let my example be followed by all by every man who loves the fame and renown of the fathers who made us a great and honored people"

The new steamer at Cincinnati is named the *Union*. She is to be commanded by Capt. Anderson.

Hendee is doing a good business in taking Ambrotypes. He takes them well promptly and at reasonable prices. See notice.

WHERE DOES THE FAULT LIE NOW.—We yesterday came across four athletic dried young men, who had enlisted in the cavalry company recently called for by Gov. Whitaker at the recruiting office at Salem. Mr. Benham deputy recruiting agent, promised that they should be under no expense for passage from Portland to the Dalles, and for that purpose gave them an order on the President of the Oregon Steam Navigation Company. Thus the President declined to accept, saying there had been no arrangement made with them by anyone. The young men are in town with their horses, without means to defray their expenses. Now, in all candor is this creditable to the State, or to Governor Whitaker in particular?

THE CONFEDERATE FORCES.—A New York despatch of Oct. 8th, from Washington says: "All information received at head quarters show that the enemy is prodigiously strong—numbering nearly 200,000 men—and that an offensive movement is at present intended. Johnson and Smith favor fabian policy, but Beauregard and Smith insist on defensive measures. The activity which is said to have prevailed for several weeks past among the Confederates on the Potomac, shows that some movement of importance is in progress, but it may amount to nothing more than to place themselves in position to sustain an attack."

THE POSITION AT WASHINGTON.—A Washington despatch of Oct. 8th, says: "General McClellan has brought to perfection his plans for the protection of the Capitol, and is near in readiness for an aggressive movement. The forces under his command have been brought to a high standard of discipline and ought to accept a part of the credit if war that there are to be no more Bull Runs."

ORDERED NORTH.—We are informed that the five companies of volunteers which arrived at Fort Vancouver per steamer *Pacific*, will leave on the morrow for the military posts north; they will be stationed for the present at Walla Walla and the Cascades. Several of their officers paid our city a flying visit yesterday. They appear like a good all round looking set of men.

The *Advertiser* says the democracy carried the country through the war of 1812. But what ought has the *Advertiser* to talk of the democracy? That sheet belongs to the peace party.

GOOD ADVICE.—The entire Catholic clergy of this city, by concerted action have advised unemployed men in their congregations to enlist in General Fremont's army.—*City Argus*.

The Charleston Courier calls earnest attention to the necessity of obtaining supplies of saltpetre, otherwise the powder mills of the South will be without the article.

EXPERIMENTS WITH RIFLED CANNON.—The Troy (N. Y. *Daily Times*, reports the results of experiments made in that city with Patterson's new steel rifled cannon:

"The first target was an old one which had been in position several years at West Point, and consisted of a block of wood about six feet long, three feet high, and three feet thick. After one or two experimental shots, to ascertain the range, the target was pierced—the ball passing clean through the thickness of the solid wood and burying itself in the ground beyond. The target was located at about the distance of eleven hundred yards from the piece, and the force with which the balls passed entirely through it proved conclusively the great power of the gun. A rather remarkable circumstance occurred during the progress of the experiment. Five years ago a cast iron bomb had been projected into the target, and failing to explode had remained there ever since. One of the balls from the Patterson gun struck this bomb and exploded it, to the no slight consternation of the parties sent to make a report of the shots.

The balls were of three different kinds: first, leaden bands with cast iron wings; and second, leather bands without wings; and third, leather bands with cast iron wings.—The last kind proved to be the ones best adapted to the cannon, and with them the most satisfactory results were accomplished. The second target was distant about twelve hundred yards on a canvass stretched upon an iron frame and marked into sections, with the bull's eye in the centre."

To the Afflicted:

Sufferers of whom [illegible] Diseases, Blood Diseases, Kidney and Bladder Complaints, Rheumatism, Piles, Fistula, Ulcers, Sores, Throat, Nose and Skin Diseases, Mercurial Affections, Impotency, Nervousness, Debility, Seminal Weakness, Spermatorrhœa, Involuntary Discharges, Diseases of the Urinary Organs, and all those Diseases of a Private Nature resulting from Self-Abuse, which destroy both mind and body, and render marriage improper or unhappy, are invited to consult the Old Physician, who has had many years experience in the treatment of these Diseases, and who has effected more cures than any other Physician in the State. Many unfortunate victims of Self-Abuse, who have been given up by other Physicians as incurable, have been restored to perfect health by Dr. L. J. Czapkay. Those who have been unfortunate enough to contract Diseases of a Private Nature, should not delay a moment, but call immediately upon Dr. L. J. Czapkay, and be restored to health, and prevent the Disease from affecting the system, and entailing upon them untold misery and suffering.

Mercury, the unprincipled, destroyer of more victims than the sword, is another formidable enemy to health, and has been the cause of untold misery to many. It is a fearful poison in the system—drives the blood from the surface, and undermines the constitution, destroying the nervous system, wasting away the energies of life, causing mental imbecility, prevents the proper development of the system, unfits for marriage, society, business, and all mental happiness, and leaves the sufferer wrecked in body and mind, predisposed to receiving disease, and a train of evils to be dreaded than death itself. With the fullest confidence the afflicted may rely upon a perfect, permanent and speedy cure to be effected, and with the most delicate regard to secrecy, many patients can be restored to perfect health without the knowledge of their friends.

The diabolic effects of mercurial poisoning, [illegible] by fifteen years of extensive practice, [illegible] the most remarkable cures. Medicines will be sent to any part of the country, and Western Territory, by patients remitting the money in the letter.

All business correspondence strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, San Francisco, Cal. Office Pacific Fish Company, Jackson street.

Remarkable Instance of Medical Relief.

Below we publish the certificates of three of the [illegible] cases of disease, who, having received [illegible] restoration to health, are impelled by gratitude [illegible] their cases and remarkable cures, and their statements are [illegible] before a Notary Public. The deponents [illegible] to publish their names publicly, and we refer [illegible] the afflicted:

Certificate. The undersigned, desirous of saving [illegible] who may be afflicted enough to be ignorant [illegible] where a professional relief of their sufferings [illegible] found, gratefully obtains publicly expresses [illegible] effected by Dr. L.
